

Everclear

"Sick & Tired"

I break every day
Stressed out in every kind of way
I am sick and tired of bein' sick and tired
All I need and crave
Loud life with the power to fade
I am livin' 'cause I keep it all in, keep it all inside
Yeah, I keep it all in, keep it all inside
Love don't work for me
I want women who are out of my reach
I am sick and tired of livin' all alone
All I need for sure
Big love with the power to make more
I am livin' 'cause I keep it all in, keep it all inside
Yeah, I keep it all in, keep it all inside
I know I'm close to the fall
I know I'm dangerous
I'm afraid I'm going down
I blame my family
Their damage is livin' in me
I am sick inside and tired of my life
All I need, I swear
Go out with the power of a nightmare
I am livin' 'cause I keep it all in, keep it all inside
I keep it all in, keep it all inside
Yeah, I keep it all in, keep it all inside
I know I'm going to fall
I know I'm dangerous
I know I'm not going down alone
I keep it all in, keep it all inside
I know I'm close to the fall
I know I'm dangerous
I know I'm not going down alone
I'm not going down alone, I know

"Loser Makes Good"

I hate waking up, it means that I have to die again tonight
35 years old and I'm still sleeping outside
Yeah I think I know your face, I don't want to know your name
I won't give in, I'm not like that, I won't give in
You say it's Christmas Eve, that don't mean nothing to me
Just another fucked up day, just another waste of time
You wonder why I live like this, man you just won't understand

I won't give in, I'm not like that, I won't give in
You smart-ass college fuck
Act like you think you're tall
I was just like you
More pride than you could know
You think you pity me
Hey I'll kick your ass if you pity me
I won't give in, I'm not like that
No I won't give in to you
You college boy act like you think you're tall
I won't give in, I'm not like that
I won't give in

"Invisible"

I will live, I will live
Maybe for a year or two, maybe for a year
I will die, I will die, I can rest secure in that
I am awful sure that this thing ain't no accident
And I just can't believe that AIDS is just some act of God
I will reach for you, I will reach my hand
No one will reach for me, no one will touch my skin
Yes I will accept, I will accept my pain
I don't deserve to die like this, no one deserves to die like this
Sometimes I get so mad I just want to break the world
I will not be denied, I will not be ignored
I'm not invisible anymore
I will not be denied, I will not be ignored
I'm real, I won't go away
I am not invisible anymore
Sometimes I get so mad I just want to break the world

Heroin Girl

I used to know a girl...
She had two pierced nipples
And a black tattoo
Wed drink that mexican beer
Wed live on mexican food
Yes, I wish I could go back
Yes, back in time

Esther used to be
The kind of girl that you would
Never leave
Shed do anything

To give me what I need for my disease
Shed do anything
I can hear them talking in the
Real world
But they dont understand that
Im happy in hell
With my heroin girl

I am losing myself in a
White-trash hell
Lost inside a heroin girl

They found her out in the fields
About a mile from home
Her face was warm from the sun
But her body was cold
I heard the policeman say
Just another overdose
...just another overdose!

Esther used to be
The kind of lover you would
Never leave
Shed do anything to give me
What I need
For my disease
She would do anything

My Sexual Life

People you know
Try to tell you things
Bad things that you dont
Want to know about
Tell you tomorrow what
You did today
Just remember, its a small town

Its a real small town

She gets shes tired of
All the stupid boys
She cant wait until
Theyre done
She wants a man who can
Take his time
She wants someone
Who can make her come

Yeah, can you make me come

You always say you want a simple life
You and me both know that
You are a liar
You always say you want a simple life
Hearing you talk just makes me tired

Swim in the heavy water
Buried in the sand
Happy hearts fall from my
Shaky hands
I cant hide my sexual life

He always says he wants to
Find a special one
But you watch his head go
Spinning around
He really wants anyone
Wholl give it up
He seems to forget hes in
A small town

You always say
You never fuck around
You say this town
Is just plain full of liars

Yeah you always say
You never fuck around
Hey, hearing you talk
Just makes me tired

Swimming in the heavy water
Buried the sand
Happy hearts fall from
My stupid hands
I cant hide my sexual life

Strawberry

Never been here, never coming back
Never want to think about the things
That happened today
Want to lay down on the warm ground
I think Im going to need a little time to myself

Dont fall down now
You will never get up
Dont fall down now

I ask you for a slow ride
Going nowhere
You look like satan
You ask me if I want to get high
Couple of bags down in old town you tie your arm and
Ask me if I wanted to drive

Dont fall down now
You will never get up
Dont fall down now

Last thing I recall
I was in the air
I woke up on the street
Crawling with my strawberry burns
Ten long years in a straight line
They fall like water
Yes, I guess I fucked up again

Dont fall down now
You will never get up
Dont fall down now

"Nehalem"

There is this rumor about
They say you're leaving Nehalem
Ever since our baby died
You've been seen with another guy
The whole damn town is talking now
They say you're leaving Nehalem
Hey don't you want me to go?
Hey don't you want me?
They say you're losing your mind
They say you're leaving Nehalem
You know how the bad words get around
Big noise in a hard small town
Tell me if you want me to go
Just tell me if you want me
They say you're leaving Nehalem
They say you're leaving me
Yeah, I know you need to break away
I don't give a fuck about what those people say
I hope you find everywhere you go
All the good things that you need to know
They say you're losing your mind
They say you're leaving Nehalem
There is this rumor out
They say you're leaving Nehalem
They say you're leaving me

"Local God"

You do that Romeo
Be what you wanna be
Look like you runnin' in place
Do that stupid dance for me
Do that Romeo
That go-go Romeo
I see you twist and turn
You look so stupid, happy, and numb
Be my Romeo
Please be my voice in this world
I can't sing the songs that you sing
I can't find the gorgeous words
Will you be my Romeo?
My go-go Romeo
I see you twist and turn you look so stupid
I feel just like a local god when I'm with the boys
We do what we want, yes we do what we want
I feel just like a local god when I'm with the boys
We do what we want, yeah we do what we want
Be my Romeo
Tell me all about your love
Tell me all about your pain
Baited breath and rubber gloves
Be my Romeo
My go-go Romeo
I see you twist and turn you look so fuckin' stupid
I feel just like a local god when I'm with the boys
We do what we want, yes we do what we want
Summer days can lead to the bad times
The world gets larger everyday
Yeah, yeah, the summer days can lead to the bad blood
That leaves me feelin' stupid, happy, and numb
Stupid, happy, and numb
I feel so stupid, happy and numb
Stupid, happy and numb
I feel so stupid
I feel just like a local god when I'm with the boys
We do what we want, we do what we want

"Science Fiction"

(It's just like science fiction
Who knows what the fuck they're talking about
There's always one in every crowd)

There is always one in every crowd
You can hear the voices when you're alone
They sound like middle-long, middle obnoxious and loud

Don't let go, don't listen to the sound of those people you know
Slowly falling apart
And falling down now
Everything is falling down now

When I think I'm alone
I watch the news on my girlfriend's tv
It's like a bad B movie
All sometimes I can't comprehend all the stupid things that I see
So don't let go,
Can't believe your eyes
Whatever they may show you
Just makes you want to cry and you don't want to know
That you need to remember that life is always getting better
So don't let go

There is always one in every crowd
You see them when you think you're alone
It all just seems like science fiction
Nobody knows what they're talking about
So don't let go, don't listen to the sounds of all those people you know
Slowly falling apart
And falling down now
You need to remember
Life is always getting better
Life is always getting better
Life is always getting better
(For a while)

"Misery Whip"

Walking wounded with a belly
full of pain
And a big bad attitude

We are shaking shadows for that
perfect dark room
Where we can do just what we
want to do

There is a place...

Where we can leave behind
All those simple minds
They would not like
the way we live

When we are all alone
In this house that we call home

You will become my
misery whip

(yes...I said like a misery whip)

Walking hungry with a pocket
full of promise
And a big black song
in my head

I know the answers to
my questions
They are purple black and blue
And they are waiting for me in my bed

There is a place...

Where we can leave behind
All those simple minds
They would not like
they way we live

When we are all alone
In this house that we call home
You will become my
misery whip
(I will say it again...
like a misery whip)

Stop!

I get no pleasure
When I'm going through
the motions
Of my mediocre day to day
I'm just an actor
Just like
Robert fucking Redford
When I say those stupid words
That they expect me to say

Yes we can leave behind
All those simple minds
They would not like the dirty
things we do

Yeah

When we are all alone
In this house that we
call home...
I will fall down like a bitch
for you

I need you to hit me and
make me
Shake
I need you to hurt me and
make me
Beg for more
I need you to bend me and
make me
Break
I need you to make me feel like
I am your whore

I feel complete when
I feel sick inside

I need to feel like
I am real inside

I need to feel like
I am really alive

I need you to make me feel

I need you to hit me and
make me
Shake
I need you to hurt me and
make me
Beg for more
I need you to bend me and
make me
Break
I need you to make me feel

Like we can leave behind
All those simple minds
They would not like
the way we live

When we are all alone
In this house that we call home
You will become my
misery whip

You will become my
misery whip

You will become my friend
